

Luxer One Unveils Groundbreaking Smart Cabinet Technology to Revolutionize Retail Security and Convenience

[Sacramento, December 2023] – In response to the pressing challenges faced by retailers grappling with rising shrink costs and the need to enhance customer experience, Luxer One introduces a groundbreaking smart cabinet technology poised to transform the retail landscape. The innovative solution comes as a response to the staggering \$112.1 billion in losses attributed to shrinkage in 2022.

Luxer One's cutting-edge technology provides a game-changing approach to retail security and convenience, retrofitting existing cabinets and fitting rooms with state-of-the-art lock control technology. This smart lock technology, operable via Bluetooth through a retailer's mobile app, eliminates the need for traditional physical key management. This strategic upgrade streamlines access for both staff and customers, offering a seamless integration into existing customer and employee apps.

The key features of Luxer One's smart lock technology includes:

Enhanced Security: In light of the escalating shrink costs, Luxer One's smart lock technology serves as a formidable deterrent against theft, safeguarding merchandise and assets within retail spaces.

Streamlined Access: By removing the need for physical keys, Luxer One simplifies access for staff and customers, fostering a more efficient and secure retail environment.

Seamless Integration: Luxer One's smart lock technology seamlessly integrates into existing customer and employee apps, ensuring a user-friendly experience for both customers and staff.

Cost-Effective Retrofitting: Luxer One offers a cost-effective solution by retrofitting existing cabinets and fitting rooms, minimizing the need for extensive renovations.

Flexible Installation Options: The technology's flexible installation options cater to diverse retail spaces, providing retailers with adaptability to meet their specific needs.

Enhanced Access Control: Luxer One's smart lock technology provides retailers with advanced access control features, allowing for heightened security measures tailored to their unique requirements.

By integrating Luxer One's smart lock technology, retailers can effectively reduce shrink costs, restore customer convenience, and create a retail environment that aligns with modern shoppers' demands. Luxer One's commitment to providing cost-effective retrofitting solutions ensures that retailers can embrace cutting-edge technology without compromising their budget.
